

# Peanut Power QRP Sprint

## Sponsored by the North Georgia QRP Club

[www.nogaqrp.org](http://www.nogaqrp.org)

**Date:** Sept. 30, 2017. **Time:** 2000Z to 2200Z – later in the day to catch west coast stations.

**Object:** Work as many Peanut Power numbers as possible on the 40, 20 and 15M bands.

**Peanut Numbers:** May work anyone. Others – work only those with Peanut Numbers.

**Peanut Power Numbers:** Get your number from [pete@nogaqrp.org](mailto:pete@nogaqrp.org) After August 1, 2017. No numbers will be given out for 2017 after 12:00 noon on Sunday, September 30<sup>th</sup> 2017 EDST.

Suggested Call – Either CQ QRP (or CQ NUT for those with a PP number)

**Exchange Peanut Power Number Stations – RST, S/P/C, Peanut Number.**

**Non Peanut Power Number Stations – RST, S/P/C, Output Power.**

**Mode** – CW, SSB

**Power** – See Categories

**Scoring** – Working a Peanut Station – 7 points

Working a non-Peanut Station – 3 points

S/P/C
State/Province/DX

“Peanut Pete”

**Total Score** equals the **total QSO points** times the number of **S/P/Cs** worked on all bands or modes (the same stations may be worked on multiple bands/modes for QSO points and S/P/C credit). There is not a multiplier for different classes or power, simply different categories. Enter in the category that applies. Maximum power for any band/mode determines your category for the entire contest.

### Categories

**Goober** – 1w (2w PEP SSB) output power or less – **Portable** – This is the **Prestige** Peanut Power Class!

**Salted** – 5w (10w PEP SSB) output power or less - **Portable**

**Boiled** – 1w (2w PEP SSB) output power or less – **Home Station**

**Roasted** – 5w (10w PEP SSB) output power or less – **Home Station**

**Raw** – **Over 5w** (over 10w PEP SSB) output power – **Home or Portable**

There is no theme nor hiking required. If you are at home on home antennas, you are a home station. If you are Portable (outside on a temporary antenna), you are portable, even on your own property. You may request a Peanut Number for use in any category.

**Focus** – In order to promote a focus of activity, we recommend the following frequencies. Up from 7061, 14061 and 21061 for CW and 7285, 14285 and 21285 for SSB. The length of this sprint is only 2 hours and score may be maximized by working all 3 bands and both modes.

**Logging** – The Peanut Power Sprint is supported by **W3KM's 'GenLog'** logging program. Use the latest version **v8.13 (or later)**.

**Entry** – Send your Pnut number if any, nut Qs, non nut Qs, S/P/Cs, score, including QSO Points & Multiplier via email to [pete@nogaqrp.org](mailto:pete@nogaqrp.org) by Oct. 15, 2017. You can calculate your score from the Peanut Power Web Site.

**All of this information should be sent via the Peanut Power Sprint pages of [www.nogaqrp.org](http://www.nogaqrp.org).**

**Awards** - Plaques will be awarded to category winners. Logs should **NOT** be submitted with your entry but category winners will be asked to submit full logs for checking.

The North Georgia QRP Club caters to QRPers in the Atlanta/north Georgia area with 150 members. We regularly have 30 people at our meetings the second Saturday of the month and have a website – [nogaqrp.org](http://nogaqrp.org). NoGa is a no dues, no officer, no rules and no formality club – Just FUN with QRP.
